

GLOBAL MULTI-VENDOR HARDWARE SALES

- Hardware sales

Through dedicated hardware sales specialists Agilitas can provide customers' access to a multi-vendor desktop, server, storage and networking product portfolio, including service parts and full system sales.

Challenges

Due to our many years' experience in successfully delivering high quality hardware sales to our loyal customer base we have built up strong relationships that help us understand the main challenges they face. These challenges often include...

- Service part availability in the appropriate geographic location
- Identifying the correct service parts required to close the call
- Lengthy hold-ups at customs
- Fluctuating pricing
- Service parts quality
- Unscrupulous grey market traders
- Pass through broking increasing pricing and reducing tracking of supply origin
- Out of region service parts, affecting compliance to OEM accreditations

Agilitas places the customer at the forefront of all business activities, with Technical Services; we ensure that we work with you to not only solve your problems but to learn from them and subsequently improve systems and prevent reoccurring issues.

Solution - the Agilitas difference

Agilitas' on-going commitment to the customer ensures that they can find resolutions to all these challenges and deliver those solutions through a single point of contact; one of our hardware sales specialists.
